

AMERICA IS IN SAFE HANDS

An Open Letter To All Americans

As a proven Commander-in-Chief, President Bush's courage, faith and leadership through September 11th and tough economic times have inspired our great Nation. In appreciation for all that he has done in the past four years, we feel compelled to speak out.

- Our Nation was attacked and our President responded:
- ☑ He dismantled the Taliban and put Bin Laden on the run
 - ☑ He liberated Iraq and imprisoned Saddam Hussein
 - ☑ He pressured Libya into surrendering its nuclear weapons
 - ☑ He revolutionized Homeland Security and protected our borders and our skies
 - ☑ His resoluteness is the only fitting response to the bravery of our firefighters, our police, our citizens, and our soldiers in confronting our common enemy

Meanwhile, he has strengthened our prosperity by:

- ☑ Supporting America's small businesses
- ☑ Giving seniors prescription drug benefits
- ☑ Improving academics and school choice
- ☑ Keeping interest rates low
- ☑ Returning more of our money in tax cuts
- ☑ Adding jobs; nearly 2 million in the last 13 months
- ☑ Championing the sanctity of marriage
